

Motion to change regulations Young Physicists' Tournament

By introducing the “experience criterion” for jurors the number of jurors available for the first physics fight is limited. Therefor only five jurors per group are scheduled. In such a case, if one of the jurors does not appear, we cannot continue with the fight.

I suggest to change the minimal number of jurors to four. This number will only be used in exceptional cases in the first physics fight.

Motion:

In Regulations, article IV, sentence 2, change word *five* to *four*.
